

PE:50PP Dash-Cam Power-Pack

Worried a Dash Camera will invalidate your vehicle warranty, we have a solution

A 'none invasive' plug-and-play Power Supply Solution that helps protect both you and your car, plus, preserving the vehicle manufacturer's warranty

The Power Pack charges while you are driving, then protects your car when the ignition is off. Your camera/s remain guarding your vehicle overnight or when parked up. **No direct hard-wiring** to your vehicle required

Supports single, or dual Thinkware camera systems, front facing driver camera, internal rear, or exterior

Some vehicle manufacturers will not authorise the connection of auxiliary equipment to their vehicles without it voiding the warranty.

Not only does an expensive car require camera protection, but so does the driver, passengers and other road users.

Leading Insurance brokers such as JCB Insurance Services and Square Mile Brokering of London recommend in-vehicle cameras as a most effective way of reducing incidents, damages, damage claims, injuries, protection against false claims, 50/50 claims and Cash-for-Crash staged incidents, stabilising or even reducing premiums. The Insurance Fraud Bureau claim there are 2,670 fraudulent claims a week.

Charging time	Approximately 60 minutes by cigar jack	Usage Time	1ch: about 20 hours (2.9Wh) 2ch: about 16 hours (3.5Wh)
Input Power	12.0V – 15.5V / 10A MAX	Voltage/Current Output	12.0V – 14.6V / 2.0A MAX
Battery Capacity	12.8V 4,500mAh 57.6Wh	Output Power	
Charging Voltage Current	14.6V / 7A(Hardwire) or	Output Voltage/Current	12.0V – 14.6V / 2.0A MAX
Dimensions	165.4(W) x 131.2(L) x 36.8 (H) / Weight: 0.95(kg)	Battery	LiFePo4 (Lithium iron phosphate)

Installation

With our Nationwide team of specialist engineers we can arrange installation of the Power Pack and camera systems to your vehicle at the same time.

No direct power connections required, only the none invasive - vehicle cigar lighter socket.
