

Entry Level Single Lens Camera for Transport Fleets

PE:F70. Optional GPS & Locking Box

 1080P FULL HD, 30fps (Front & Rear)	 Road Safety Warning System (FVDW)	 Safety Camera Alert	 Advanced Video Clear Technology
 140° Wide Angle	 Energy Saving Parking Recording	 G-Sensor Incident Detection	 Integrated Thermal Protection

Superior day/night vision. Motion and Impact Detection Recording

Optional GPS Antenna provides location of speed cameras and known speed traps, plus tracks vehicle locations, dates, times and driver speeds

Interface for Windows & Mac

Front Vehicle Departure Warning

When stopped at traffic lights or an intersection the Intelligent guidance system alerts the driver that the vehicle in front has started to move.

Manual Incident Record Button

Manually pressing the red record button electronically marks the incident and copies it to a separate 'Manual Record' folder

Parking Mode (Hardwire Version only)

With the built-in parking mode, the device stays on even after the ignition is off to provide impact and motion detection surveillance when you are away from your car.

Optional Locking Box

To avoid unauthorised removal of power cables, GPS cables and SD cards

Optional GPS Antenna

Records and tracks time, speed and location information. Displays GPS information directly on Google Maps when the video recording is played back

F70 - Energy Saving Parking Mode, uses 1/3 less power when parked with ignition is off.

Thermal protection sensor triggers the self-protection mechanism to shut down the device under extreme temperatures. Intelligence Auto Exposure - Smart Focusing System - Continues recording during an accident. **Format Free - Win/MAC Viewer**

The optional GPS signal receiver keeps track of your vehicle's physical location as well as driving speed while it is on the road. During playback of the videos Google Maps appear on the PC viewer screen along with the GPS information to help you trace your route and speed.
